DATE MAILED: 06/16/2004

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 0 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 0 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows: In line 3 of paragraph 0003, the term "damands" has been replaced with the term --demands-- to correct a minor spelling error.

Allowable Subject Matter

3. Claims 1-12 are allowed.

4. The following is an examiner's statement of reasons for allowance: The claims, setting forth a wheel having a base wheel skeleton including a rim, hub, and plurality of spokes connecting the rim and hub, wherein the spokes include at least two threaded holes adjacent the connection of the spokes with the rim, at least two radially and angularly symmetrically spaced threaded holes disposed generally around a periphery of the hub; a hub cap attachable to the wheel on a first wheel side through at least one mounting extension to the threaded holes disposed around the periphery of the hub, at least one skin element attachable to the wheel with at least one hole at one end of the skin element to one of the threaded holes adjacent the spoke and rim connection, the

Art Unit: 3617

skin element further including an extension disposable under a portion of the hub cap to facilitate retention of another end of the skin element by the hub cap, the surface of the spokes on the first side of the wheel remaining exposed after attachment of the hub cap and skin element; have been found to be allowable over the prior art. The prior art does not teach or suggest a wheel having the configuration as set for above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references are considered to show wheels having skin elements attached to a hub cap for covering portions of the wheel. For example, Enomoto et al shows a wheel of the type described immediately above.
